1. Trophies will be awarded to the top 3 competitors with the highest overall score in each category. These trophies will be presented at the Annual Award Ceremony.
2. Athletes must have participated in and finished in 2 races of the above races to be eligible for the award. If any two of the above races are cancelled for any reason, there will be no award for the 2026 Triathlon Series.
3. The score for the winner of each race will be 100.
4. The score for other participants who finished in that race will be $(n-x)$ divided by 'n' times 100%; with 'n' being the total number of finishers in that race and 'x' being the position of that participant minus one.
5. The overall ranking in each category will be determined by adding the scores of all races. The winner will be the one with the highest total score.
6. If one or more participants have the same total score, the participant who has finished the highest number of races will be ranked ahead of any participant who has finished fewer races.
7. In the event on or more participants have the same total score from the same number of races, the participants with the shortest total completion times from all the races will rank in front of the one with the longer total completion time from all the races.
